Cruise industry is rapidly growing all over the world driven by a global demand that is still increasing and meeting diversified customer needs. The webinar will overview current point of view of both the shipowner and the service provider about the market. In the webinar the insight will cover different phases of the cruise lifecycle starting from the coordination in design, building and finishing of the ship and moving forward to market request in terms of customer needs coping with services offered, technologies developments and regulatory needs.

Carnival Corporation & Plc is world leading player in the cruising sector, operating ships with diversified range of services and segments

The webinar is organized in the framework of the Cluster ACT project, funded by the EASME EMFF and tailored to support investments in the maritime sector in the Mediterranean.
